CREDIT REQUIREMENTS

Winter term 2023/2024

1st year DENTISTRY

The course on Medical Chemistry and Dental Materials in the 1st year of study, winter term 2023/2024, ends with a credit, which is a prerequisite for the subsequent oral examination.

CREDIT REQUIREMENTS:

- sufficient attendance: not more than three seminars/practical lessons missed
- completed, handed in, checked and approved reports from the practical lessons
- passing the written credit test (mark of at least 60% obtained)

WRITTEN CREDIT TEST:

The credit test consists of 18 questions. Some of the questions are calculation tasks; in others writing the chemical structures, names of compounds or chemical equations is required. The rest are either fully open questions, or the multiple-choice questions. In questions of the latter type, there is always at least one (i.e., one or more) positive answer.

Detailed structure of the test is announced separately.

The test is scheduled for **Friday January 19th 2024**.

The time of the test session as well as the room where it takes place will be specified later. Registration for the test is unnecessary as all students are expected to come. Students are obliged to complete and hand in their lab reports before the test session, otherwise they will not be admitted for the test.

Using or even keeping any electronic devices, including (but not limited to) mobile phones, mp3 players, and graphical calculators, is strictly prohibited during any written test and any oral examination at our institute.

Accordingly, students need to bring only writing tools for the credit test. Simple scientific calculators are allowed. Alternatively, students will be provided with our own calculators.

For students who miss or fail the test on January 19th, further test sessions can be organized during the examination period or summer semester in dependence on agreement with Dr. Jan Pláteník (tel. 224 964 587, jplat@lf1.cuni.cz).

However, one student cannot attempt the credit test more than three times.

December 6th, 2023

Prof. MUDr. Tomáš Zima, DrSc., MBA
Head of the Institute
