Announcement for Winter Term 2024/2025

2nd year GENERAL MEDICINE

Practical Lessons

The practical lessons on Medical Chemistry and Biochemistry will start in the first week of the winter semester according to the issued syllabus.

The following **group teachers** have been appointed:

	14.15-17.15	
Monday	2055 MUDr. Jan Pláteník, Ph.D.	2056 Ing. Martina Čierna
Wednesday	2051 Ing. Iva Subhanová, Ph.D.	2052 MUDr. Martin Leníček, Ph.D.
Thursday	2053 Ing. Ľubica Ondrušová, Ph.D.	2054 Mgr. Libuše Nosková

Each practical lesson **starts at 14.15** in the **Student Laboratory** of our institute with an **introductory theoretical section** that will also encompass a **written test**. Students are expected to use the cloakrooms located in Kateřinská 32, lower basement, and come in white laboratory coats and slippers already for the theoretical introduction.

Before the first lesson students should await their group teachers downstairs in the hall behind entrance to Kateřinská 32 building, from where they will be guided to cloakrooms.

Each student is supposed to bring to the practical lesson a **white laboratory coat, slippers, padlock** (for the cloakroom) **water-resistant markers, writing tools**, and the written **instructions** issued for each practical lesson.

The written instructions will be issued for each practical lesson and posted on the website of our institute not later than during the week preceding the lesson. Students are obliged **to read these instructions in advance**, and bring them either printed or loaded to a personal electronic device (cellular phone, tablet etc.).

Unfamiliarity with the instructions can be considered as violation of the safety rules and in extreme cases may result in exclusion of such student from the practical lesson (with absence counted).

Before or at the first lesson all students are obliged to familiarize with our **Safety Rules for Work in Student Laboratory**, and strictly follow these rules ever after.

September 9^h, 2024

Prof. MUDr. Tomáš Zima, DrSc., MBA
Head of the Institute
